

**Jamato®**

**CZ** SERIES

Economy Type Overlock / Safety Stitch Machine

*Jamato CZ, designed and manufactured under cutting-edge technology, supports your good quality garment manufacturing for today and future.*

# Sub Models

## CZ6000 1 needle 3 thread overlock machine for blind hemming operation

- Features:  
With exclusive sewing parts and blind hemming guide, it dedicates soft & beautiful stitches to you.
- Application:
- T-shirt, Polo-shirt etc.
  - Light to medium weight material

## CZ6003 1 needle 3 thread overlock machine for general seaming

- Features:  
Applicable to the single needle overlock procedure on all kinds of knitted and woven garments.
- Application:
- All kinds of knitted and woven material
  - Light to medium weight material

## CZ6016-61 1 needle 3 thread overlock machine for rolled hemming

- Features:  
You can easily change the overlock width among 2mm, 3mm, 4mm by changing the stitch plate tongue and presserfoot tongue (the conversion between 2mm and 3mm only need to change the stitch plate tongue) without sacrificing finished quality.
- Application:
- Knitted, woven, napkin, scarves, handkerchief, etc.
  - Extra light to light weight material

## CZ6016 1 needle 3 thread overlock machine for rolled hemming

- Features:  
Rubber-coated feed dogs prevent your material from damaging. So, it is especially suitable for fine material such as silk stocking, pantyhose.
- Application:
- Silk stocking, knitted, pajamas etc.
  - Extra light to lightweight material

## CZ6020/6025 CZ6120/6125 2 needle 4 thread overlock machine for general seam attaching reinforcing tape

- Features:  
The change of overlock width from 4mm to 8mm can be adjusted by any of the two models. Also, it can be widely used in any type of knitted outer/inner wear. (CZ6120/6125)
- Remarks:  
The presser foot of CZ6020/6120 has a wide pressing surface.  
The presser foot of CZ6025/6125 has a narrow passage for tape on pressing surface.
- Application:
- All kinds of knitted and woven material
  - CZ6020/6025: light to medium weight material
  - CZ6120/6125: light to heavy weight material

## CZ6500 2 needle 5 thread safety stitch machine

- Features:  
For general safety stitch operation.
- Application:
- All kinds of knitted and woven material
  - Light to medium weight material

## CZ610 2 needle 5 thread safety stitch machine

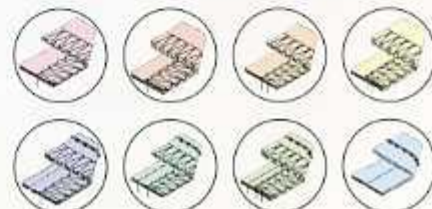

- Features:  
Equipped with high lift looper drive mechanism, coarse mesh feed dog, tractor type presser foot for smooth feeding performance even at thick material of heavy weight material.
- Application:
- Denim, corduroy etc.
  - Medium to heavyweight material

## CZ6520/6525 3 needle 6 thread multi-purpose safety stitch machine

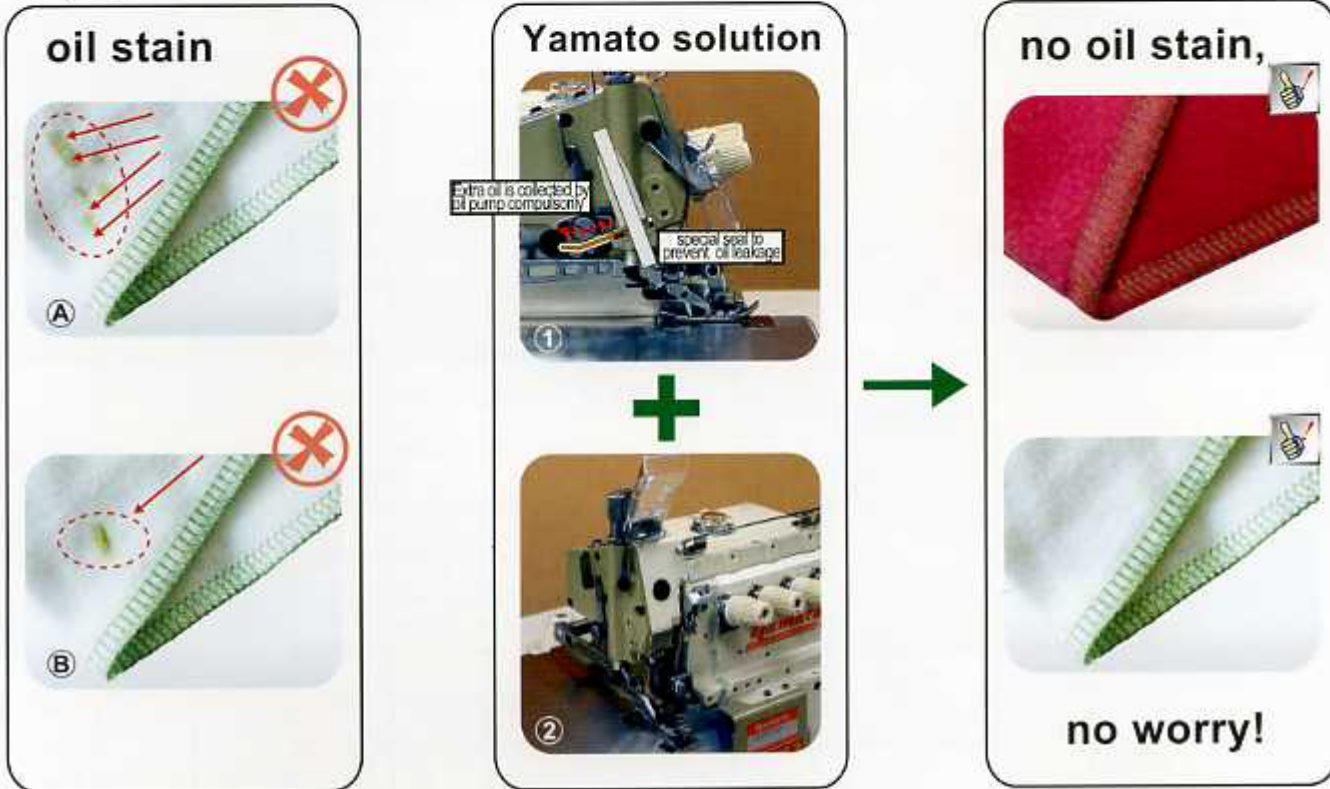

- Features:  
It can make various seam styles as illustrated without changing any parts.
- Remark:  
The presserfoot of CZ6520 has a wide pressing surface.  
The presserfoot of CZ6525 has a narrow passage for tape on pressing surface.
- Application:
- All kinds of knitted and woven material
  - Light to medium weight material

# ENJOY THE WORLD LEADING TECHNOLOGY

## Prevent oil leakage

Oil stain is one of the biggest headaches for all manufacturers. Using Yamato CZ series, no oil stain, no worry any more!

**Pic ① pump collecting extra oil mechanism (patent pending)**

CZ Series adopts the same needle bar mechanism and special seal, which are used in AZ Series, Japanese made high-end overlock machine. Thus, the risk of oil leakage around needle bar area is minimized. (no need to worry about the finish shown in Pic. (A))

**Pic ② sealed needle bar mechanism**

The mixture of lint and dust causes not only needle bar abrasion, but also oil stain (Pic. (B)). Yamato's sealed needle bar mechanism solves above problems, enhancing thoroughly the quality of your finished garment!

## Low noise/little vibration, durable machine!

Precise reasonable design, high quality parts ensure CZ series for quick acceleration, low noise and little vibration. Thus, the fatigue of operators is minimized. And instable operation and injuries are considerably decreased. Moreover, low noise/little vibration proves less abrasion of the machine, which means longer running life.

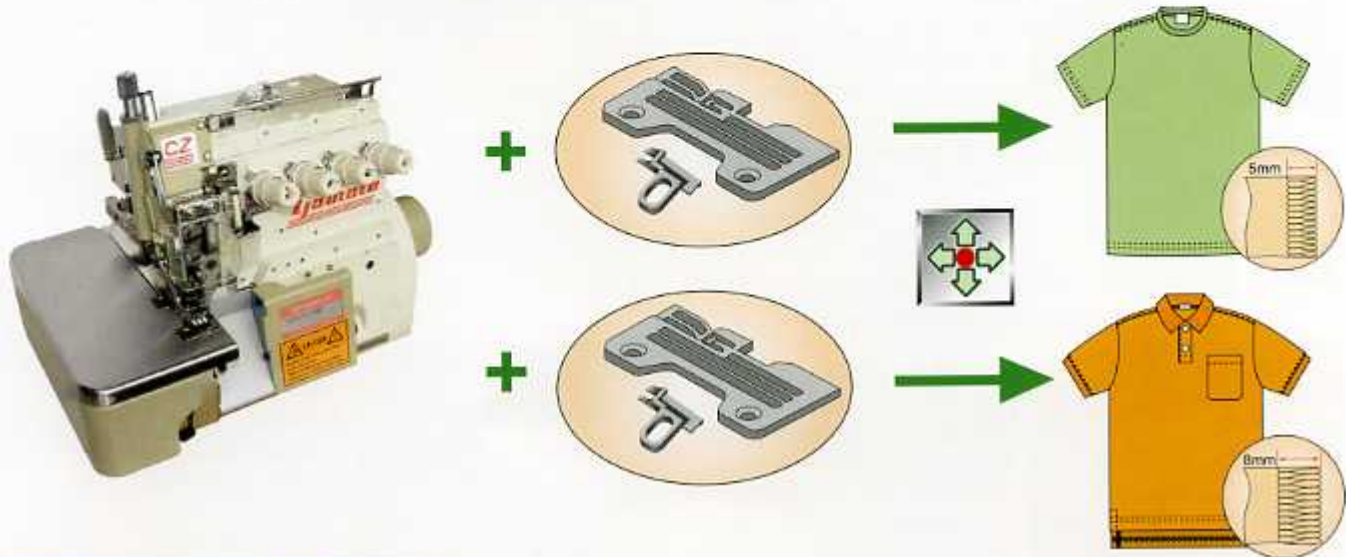

# No oil stain, no worry

# ... AT AN ECONOMICAL PRICE!

# Jamato®

## Multi-purpose machine

Epoch-making CZ6120/6125, enables any operator to easily change the seam width from 5mm to 6mm by changing only stitch plate and presser foot tongue. Meanwhile, it ensures uniform quality!

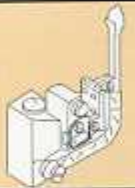

## Perfect seaming & stitching

**Adjustment of stitch length and differential ratio is very simple & easy.**

Adjustment of stitch length is done by a push button system.  
Adjustment of differential ratio is done by lever.  
Respond quickly to the change of material and order.

**HR Device**

HR device effectively prevents the temperature of needle tip from getting too high. Thus the problems of needle breakage, skipping stitch, needle hole are successfully prevented, especially when synthetic thread and/or synthetic fabric used.

**Achieving perfect seaming & stitching.**

You can get tight seam without excessive thread tension.
