2, 3 NEEDLE CYLINDER BED INTERLOCK STITCH MACHINE

VG2700-8

2, 3 Needle Cylinder Bed Interlock Stitch Machine for Hemming and general seam

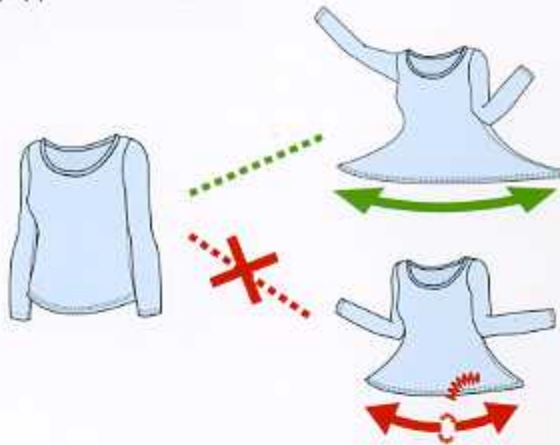

VG2740-8

2, 3 Needle Cylinder Bed Interlock Stitch Machine for Hemming

- Equipped with "Active Thread Control", which performs epoch-making soft and elastic seams and helps your quicker response to frequent changes in sewing conditions.
- Exclusive sewing parts and fabric guides suitable for good quality hemming operation are equipped with VG2740-8.

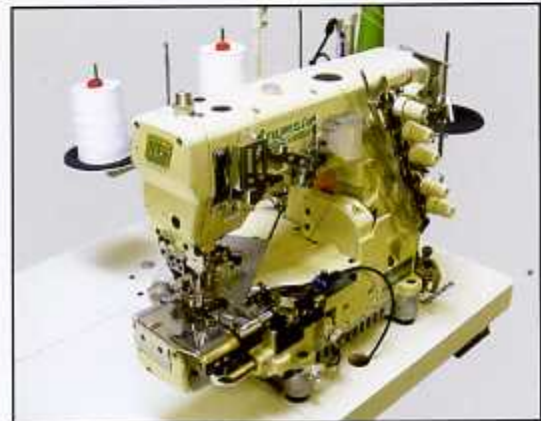

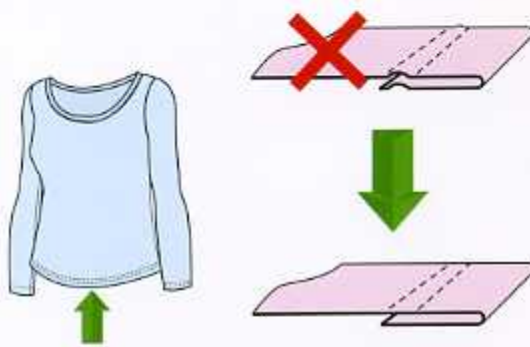

Control"

VG3721-8

2, 3 Needle Cylinder Bed Interlock Stitch Machine for Hemming, with Left Hand Fabric Trimmer

- Another hemming model with "Active Thread Control", and unique left hand fabric trimmer, which trims edge of folded fabrics for neat finish.

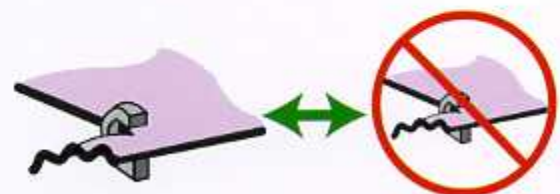

■ Micro Adjuster for easy fine adjustment. (PAT.P)

- Trimming position is easily adjustable while keeping engagement of knives.
- Applicable for different hemming styles with little downtime.

■ Simple cancellation of trimmer for further flexibility. (PAT.P)

- Quickly switchable into "non-trimmer" model for several different operations.

If you are looking at further flexibility for recent frequent and big change in sewing conditions, YAMATO is the right machine. YAMATO VG-8's "Active Thread Control (PAT.P)" performs epoch-making soft and seams suitable for lady's intimate garments with "microfiber", which is lightweight, soft and stretchable. It is also applicable for standard seams by simple and "visible" adjustment.

YAMATO VG-8 helps you winning further confident from your clients with your improved quality and quicker response.

■ Active Thread Control (PAT.P).

Unlike conventional way of thread control, which mainly use tension (resistance) on each thread, YAMATO "Active Thread Control" takes in and draws back each thread when it is required, and form well-balanced seam with minimum necessary tension (resistance) for thread regulation. Besides, wide variety of seam, from soft and elastic seam to standard seam, can be performed by simple and "visible" adjustment, not by "fuzzy" adjustment using thread tension device.

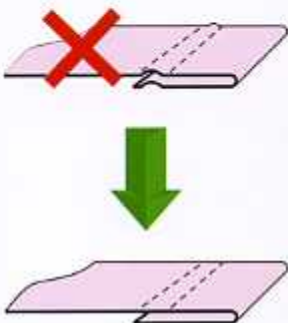

"Active Thread

■ Applicable for wide variety of sewing conditions. by replaceable tongue at stitch plate.

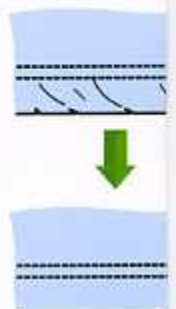

■ Tunnel free finish.

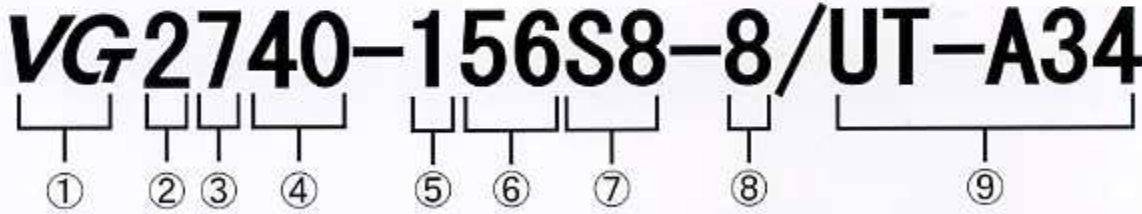

■ Optional Kits:

Walking Presser Foot for Hemming (WF1) etc.

2, 3 NEEDLE CYLINDER BED INTERLOCK STITCH MACHINE

■ Numbering on Model

- ① Symbol of Series
- ② Class No. : 2=standerd, 3=with lefthand fabric trimmer
